# Korvan 9200 Coffee Harvester

For over 15 years coffee growers around the world have turned to the reliable performance of the Korvan Model 9200 to deliver quality coffee while reducing labor costs. With a stable 3-wheel design, the harvester is maneuverable and features durable polycarbonate catcher plates with adjustable pitch for maximum fruit retention. The Korvan 9200 is capable of effectively and efficiently harvesting cherries from large or small plants and is a cost effective way of picking coffee.

## Dimensions

Length:	16ft 10in (5.89m)	Tunnel Width:	4ft 7in (1.4m)
Width:	11ft 5in (3.48m)	Throat Width:	2ft 1in (0.6m)
Min. Height:	11ft 5in (3.48m)	Weight:	13,000 lbs (5,897kg)
Lift:	1ft 10in (0.52m)		

## Features

Large Picking Tunnel:	The large picking tunnel of the Model 9200 accepts bigger trees at higher picking speeds with minimal damage and bean dropage.
Picking Heads:	Available with either the selective pick Dynarotor™ head or the aggressive Dynarotor-Plus™ picking head, the Korvan 9200 effectively and efficiently removes cherries. The horizontal shaking action and free turning picking drums virtually eliminate drag and tree damage.
Customized:	With options of either a high capacity, on-board storage bin that is hydraulically controlled for quick, easy unloading or an over-the-row conveyor, you can customize your Korvan 9200 to your field and your operation.
Easy Operation:	The three-wheel design allows for a tight turning radius. Operator is positioned above the picking unit for excellent visibility and with controls within easy reach.
Low Ground Compaction:	High structural integrity with minimum weight, low center of gravity for stability, and low ground compaction.
Cleaning System:	An air-pressure separator, located in a clean environment, lifts the cherries while thoroughly removing debris.
Powertrain:	The Korvan 9200 features a reliable John Deere engine. The engine is located low to the ground for increased harvester stability as well as for easy servicing and maintenance.

## Available Options

- Over-the-row conveyor
- Side dump bin
- Dynarotor™ picking system
- Dynarotor™ Plus picking system
- Automatic steering
