

It's good to have options

Working as a team, and as your partner, Northland Capital strives to offer exactly the right finance program to meet your needs. It's important to have a finance company that offers personalized service and provides capital quickly and easily to keep businesses running smoothly. We make the entire financing process easy and efficient for you with many flexible options.

Just as you have carefully compared and selected the right equipment for your operation, Oxbo has carefully selected Northland Capital as a finance partner and recommends us to their customers.

Leasing is a convenient, faster way to acquire equipment. With our customized leasing options, you'll access equipment without using working capital or business credit lines. It's good to have options offering cash preservation with better terms, fixed flexible payment schedules and no additional collateral requirements or restrictive covenants.
