

Rear Branch Lifters

Kit Number: 166550

Optional rear branch lifters can be added to any Oxbo 7440 or 7420. These branch lifters are added to the transition between the lower belts and bucket lines. These lifters were designed to keep the low-hanging branches of large blueberry plants from sweeping fruit out of the back of the harvester. Part number contains a complete set of right- and left-side lifters.
