

# Full-Length Gusset Rod Holders

Kit Numbers: 162460 & 162461

New rod holder was designed with a full-length gusset to provide improved support for the rear section of the holder and the tail of the picking rod. This gusset can extend the life of the picking rod in the standard head configuration.

**Compatible with 113008 rods and all 6420 and 6430 models with the standard head configuration.**

*Not compatible with the wide head design.*

**NEW**
